CIPCAMPTIWL C07-082

Wireless Pan&Tilt Network Camera

Keep an eye on your home or office area from any location! This wireless 54 Mbps network (IP) camera is ideal for remote monitoring different spaces, at home (e.g. babyroom, living room) as well as business use (e.g. monitoring a reception or warehouse). By connecting the IP camera to your (wireless) router, you can access the live images recorded by the camera from any PC or notebook via the Internet or local network. With the infrared leds you can also monitor the area in the dark and thanks to the pan and tilt function, you can keep an eye on every corner of the area.

Highlights

> Monitor your home or office from anywhere in the world
> 1/4" Progressive CMOS, 640 x 480
